EUSENSIA CALM FACTORS, with Lactium® is a dietary supplement which helps you to face temporary anxiety and tension and allows you to prevent and regulate problems and bad habits due to stressful conditions. It calms the nervous system, and contributes to the reduction of cortisol levels (stress hormone).

THE WAY IT ACTS:

by means of a selective affinity for certain receptors in the central nervous system, called GABA receptors, Lactium® increases the activity of gamma-Aminobutyric acid (GABA), a neurotransmitter well known for its inhibitory action on anxiety and its relaxing properties. Unlike sedative medications, Lactium® does not create any addiction, even at a high dosage. It therefore acts effectively and naturally.

The anti-stress and calming efficacy of Lactium® has been confirmed at a dose of 150 mg per day in reducing and regulating main side-effects of stress: tension, irritability, fears, mood swings, snacking, physical pains, interpersonal problems, digestion problems, excessive smoking habit, sleep, memory and concentration. Helps reduce anxiety before examinations, stressful events, flights and stress related blood pressure values.

FREE FROM: GLUTEN, GMO, SUGAR

INSTRUCTIONS & PRECAUTIONS

FOOD SUPPLEMENTS SHOULD NOT BE USED AS A SUBSTITUTE OF A VARIED AND BALANCED DIET / DO NOT EXCEED THE RECOMMENDED DAILY INTAKE / THE EXPIRY DATE REFERS TO THE PRODUCT UNOPENED FORM AND STORED CORRECTLY / CONSULT YOUR MEDICAL SPECIALIST FOR THE PERIOD OF ASSUMPTION, IN CASE OF HYPERSENSITIVITY TO ANY INGREDIENT OF THE PRODUCT OR TO PREVENT POSSIBLE INTERACTIONS OR COUNTER INDICATIONS WITH MEDICINES THAT YOU COULD BE TAKING / NOT RECOMMENDED FOR CONSUMPTION WITH ALCOHOLIC BEVERAGES / DO NOT USE IF YOU ARE PREGNANT, BREASTFEEDING OR ALLERGIC TO MILK PROTEIN (CASEIN) / IT CONTAINS VERY LITTLE LACTOSE (<0.5%) / STORE IN A COOL (<23°C) AND DRY PLACE AND AWAY FROM HEAT AND LIGHT.

COMPONENTS & CHARACTERISTICS

Lactium® is a natural product that offers a simple and safe solution for coping with emotional and psychological stress and has been proven to be non-toxic and does not have undesirable side-effects. The active ingredient in Lactium® is the bioactive peptide contained in the milk protein hydrolysate alpha-casozepine. This is an ingredient that contains a short-chained protein which is uniquely dissolved in the digestive system of babies, an ability which disappears in adult life. By using a well-known digestive enzyme - the trypsin- researchers have reproduced the baby’s digestive mechanism.
